Bogotá D.C., January 29, 2021.

The Board of Directors of Grupo Energía Bogotá authorized the administration to subscribe a new Investment Framework Agreement with Enel Américas S.A., which would regulate its relations as shareholders of Emgesa S.A. ESP and Codensa S.A. ESP. This agreement will only become effective when certain conditions precedent are met and the required corporate and company authorizations are obtained from both partners. This new framework agreement would permit the integration of renewable businesses into their joint investments, establish new corporate governance rules more in line with the new objectives and opportunities of this new stage, among others.
