

PRESS RELEASE

For third year in a row, Empresa de Energía de Bogotá is recognized as one of the best issuers of the Stock Market

October 14, 2016. For third year in a row, the Stock Exchange of Colombia (BVC) granted the IR-Recognition to Empresa de Energía de Bogotá, leading company of Grupo Energía de Bogotá, as a result of its commitment to the adoption of best practices in information disclosure and relations with investors.

The IR-Recognition is granted to listed companies that voluntarily deploy communication channels intended to allow for a better positioning of the companies, which strengthens investors' trust and credibility.

Colombia's Stock Exchange grants the IR to listed companies that fulfill certain requisites such as having a representative to take care of investors' inquiries, both in Spanish and English, disclose information in both languages in addition to that regularly required, keep the information for investors updated in the website, publish financial statements (balance sheet and income statement) with figures consolidated on a quarterly basis and perform events every quarter to deliver financial results.

"This great distinction allows our Corporate Group to be increasingly more attractive for the stock market, which motivates us to keep on working on the strengthening our relations with our stakeholders and adopting practices that provide more transparency to our processes", Felipe Castilla, Chief Financial Officer of Grupo Energía de Bogotá, stated.

To the Group, this recognition is the outcome of an ongoing work focused on complying with the highest standards of Corporate Governance through an objective, clear and verifiable management.

About Grupo Energía Bogotá

Grupo Energía de Bogotá is one of the leading groups of the low-emission energy chain of the region. As a Corporate Group it creates value for its shareholders and stakeholders through the sustainable and cost-effective management of business activities throughout the energy chain, both in the generation, transmission, distribution and commercialization of energy and in the transportation and distribution of natural gas. The Group contributes to the
