

RELEVANT INFORMATION

Bogotá, D.C. January 6th, 2021.

In light of the recently published information in press, GEB informs that in the development of its growth strategy in the electricity transmission sector, where it has an important presence in Guatemala, Peru, Colombia and Brazil, it is permanently evaluating investment opportunities, both in Colombia and abroad. ISA is a company with the highest technical, financial and corporate governance standards in the region and one of the country's main multilatin companies. Keeping the public ownership of a strategic company like ISA, while providing significant resources to the Nation, would be a highly favorable outcome for the country. As soon as important facts regarding diverse investment opportunities under constant review by GEB arise, the market will be duly informed.
